Dantzick, June 3.

OUr Letters from *Warsaw* tell us, That the 28th past the Marquiss *de Vitry*, Ambassador from the Most Christian King, had his Audience of Leave of the King and Senate of *Poland*, in order to his return home; That the Cham of *Tartary* had sent an Envoy to the King of *Poland* to inform him of his arrival at *Fasse*, the Capital City of *Walachia*, and that he was continuing his March towards *Hungary*, with a very considerable Body of Horse, in order to joyn the Troops of the Grand-Vizier at *Belgrade*. The same Letters add, That the Imperial Minister at *Warsaw* had received Bills of Exchange for One hundred thousand Ducats which are to be paid unto the King of *Poland*, in consideration of the Forces he is obliged to send into the Emperor's Service, in pursuance of the Treaty concluded between them; That the Preparations for the War are carried on with all possible diligence and vigor, and it is not doubted but the King of *Poland* will take the Field with his Army about the latter end of this Month.

Comorra, June 4. The 2 Instant 3 Regiments of Imperial Dragoons and a considerable Party of Horse passed the *Danube* and the *Waag*, and yesterday morning invested *Newheusel*, and took a great number of Cattel in the adjacent Fields, which the Turks had left feeding there, believing that the Imperialists were employed in the Siege of *Gran*, whither the Bassa of *Newheusel*, upon the first notice he had of the Duke of *Lorrain*'s turning that way, had sent a considerable quantity of Ammunition, under a Convoy of 800 Horse. This day the rest of the Infantry marched towards *Newheusel*, whither the great Cannon, which is to be employed on the Batteries, will be sent to morrow.

From the Imperial Camp before Newheusel, *June* 8. The Duke of *Lorrain* being arrived the 4th Instant before this place, commanded 1000 Men to attack an out-Fort, which they accordingly did that Afternoon, and took it. Yesterday we took the lower Town, a great part whereof the Vice-Bassa has burnt, and is retired into the chief Fortress, where he is preparing for a Vigorous defence. We lost in the first action 20 Men, and amongst them the Count *de Tassis*, brother to the Prince *de la Tour*, who was killed by a Janizary. This Evening we shall have three Batteries ready to play upon the Fortress, and hope to be Masters of the Counterscarp as this day. Our Army is Posted on both sides of the River of *Neustra*. Yesterday being Whit-Sunday we began to throw our Bombs, and to batter the place with our great Guns. The Vice-Bassa, after having sent an Officer to the Duke of *Lorrain*, to acquaint him, That he wondred he would by acts of Hostility engage the Emperor and the Grand-Signior in a Quarrel, and break the Peace, which as yet ought to be observed between them, caused two white Flags and a red one to be hung out upon the highest Tower of the Fortress. The Party which the Duke of *Lorrain* sent towards *Gran* have succeeded in their attempt, having burnt the Bridge of Boats which the Turks had laid over the *Danube*, and thereby prevented them from advancing towards our Camp. The Bassa of *Newheusel* (who was abroad when the place was invested) not being able to get in, is retired to *Gran*.

Vienna, June 10. Yesterday being the Emperor's Birth-day, was observed here with great solemnity. Our Letters from the Imperial Camp say, That the Duke of *Lorrain* had besieged the Fortress of *New-heusel*, That he was already Master of the lower City, and hoped in a short time to compel the Turks to Surrender the Fortress, they having no expectation of Relief. On Monday last the Nobility of the Country of *Presbourg*, to the number of 3000 Horse, joyned the Army before *Newheusel*. Captain *Cranz*, and some other Officers in Count *Starenberg*'s Regiment of Foot, were slain in the Attack of the Lower-City.

Copenhagen, June 12. The Troops in the Provinces of *Funen* and *Jutland* have Orders to march forthwith for *Holstein*: The King's Horse-Guards are already parted from hence for *Flensbourg*, where they are to stay till his Majesties arrival. One thousand Seamen are arrived here, and 1500 more are expected for the Service of the Fleet. His Majesty has Issued out a Proclamation, commanding all his Subjects that have taken Service on Board the Ships of any Foreign Prince or State, to repair home immediately upon pain of Death. The King of *Sueden* has sent 300 Men to reinforce the Garison of *Wismar*.

Elsineur, June 16. Two days agoe 18 Danish Men of War came into this Road, and Sailed back again to *Copenhagen* without casting Anchor. It is believed, the King of *Denmark* was on Board them.

Ratisbonne, June 14. The 12th Instant the Elector of *Bavaria* passed through this place, in his return home: He has appointed a general Rendezvous of his Troops at *Herschfeldt*, near *Ausbourg*. The States-General of the *United Provinces* have ordered their Minister here to go to *Munick*, to adjust some matters with his Electoral Highness, with relation to the Treaty of Guaranty between him and the said States. The Electoral Colledge have not as yet given an Answer to the Propositions made unto them by the Colledge of the Princes. The States of *Swaben* are assembled at *Ulm*, to consider of the best means for the defence of that Circle in the present juncture of Affairs, and have made a considerable progress in the matters depending before them.

Cologne, June 11. From *Munick* they write, That the Elector of *Bavaria* has appointed a Rendezvous of the Troops of that Circle, to be held,
